

GORDENSER

Ref. 150514.00

Producer: Mapryser, S.L.

Description: Fertilizer. Potassium Solution.

PHYSICAL PROPERTIES

Aspect:	Dark Liquid
pH:	7,5 +/- 0,5
Specific Weight:	1,18 g/cm ³

COMPOSITION (weight/weight)

Potassium Oxide (K ₂ O) soluble in water:	12,00 %
Molybdenum (Mo) soluble in water:	0,45 %

CHARACTERISTICS

GORDENSER is a formulated product for the fattening and ripening of fruits. The product contains a combination of macro and micronutrients together with natural compounds coming from plant origin with a strong biostimulant effect, such as amino acids, vitamins, polysaccharides and other activating substances with biological activity. GORDENSER is a very powerful stimulant of the absorption of potassium, the main source for fattening and ripening of the fruit evenly. The end result will be a higher production of fruits and more even and faster ripening.

CROPS

It is recommended to be used in all crops, especially in citrus, fruit trees, olive trees, grapes, horticulture, strawberries, etc.

DOSAGE

	Foliar	Irrigation	N° Applications
