

POTASER PLUS

Ref. 181012.00

Producer: Mapryser, S.L.

Description: CE Fertilizer. Fertilizer NK (3:21) in solution

PHYSICAL PROPERTIES

Aspect:	Liquid
pH: (1% in water)	11,50 +/- 0,5
Colour:	Transparent slightly yellow
Specific Weight:	1,34 +/- 0,01 g/cm ³

COMPOSITION (weight/weight)

OrganicNitrogen (N):	3,00 %
Potassium (K ₂ O) soluble in water:	21,00 %
Sequesteringagent(EDTA):	30,00 %

CHARACTERISTICS

POTASER PLUS is a potassium fertilizer with a very high stability under all soil conditions, easy to use and highly effective as a source of potassium to the plants. POTASERPLUS has been specifically designed to have a high stability even in highly saline waters and soils. The product is a stable source of potassium thanks to the organic molecules which are used in the formulation, which also make it highly absorbable for the plant. Used in all cases of potassium requirements of the plant, especially in fruit fattening, the product ensures complete and rapid maturation. The product helps the plant absorb also micronutrients present in the soil.

CROPS

It is recommended to be used in all crops.

USAGE RECOMENDATIONS

It is recommended to use the product via foliar application or fertirrigation. The product can be mixed with other fertilizers or agrochemicals, except for the products of acid reaction.

DOSAGE
