

BIOTYL

Ref. 031016.00

Producer: MS Biotech spa

Description: Specific action product based in microorganisms. Strong bio-stimulant which helps plants improve growth and control foliar fungi.

PHYSICAL PROPERTIES

Aspect: Hydro-dispersible liquid product

COMPOSITION (weight/weight)

Organic amendment:	non composted organic vegetable amendment
Mycorrhiza content:	0,0001% <i>Glomus spp</i>
Rhizosphere bacteria content (<i>Bacillus spp</i>):	10 ⁸ UFC/g

CHARACTERISTICS

BIOTYL is a state-of-the-art liquid which has been designed to improve the biological balance of foliar microflora in plants. This balanced microflora allows for a better response to thermal, hydric or biological stresses suffered often by plants. Thanks to the presence of PGPR, BIOTYL is able to recover the lost biological balance in the soil. The product can be absorbed by foliar or fertirrigation applications and it can be used in all crops. Microorganisms contained in BIOTYL synthesize siderophor compounds which improve iron solubility in the soil, even in high pH soils, among other beneficial nutritional effects.

CROPS

It is recommended to be used in all type of crops

USAGE RECOMMENDATIONS

IMPORTANT: It is recommended via foliar application or fertirrigation. The product has to be mixed with double the dosage of ACTIVE ON (400 cc/Hl) activation product and irrigation water, and left alone for 3 to 8 hours in the irrigation tank. The product is a dry suspension of resistance spores which activate in the presence of the activator and water.

TRANSPLANTING: put the roots in a water solution with 1-2 cc / liter of BIOTYL + 1-2 cc/ liter of ACTIVE ON.

DOSAGE

	<u>Foliar</u>	<u>Irrigation</u>	<u>Application Season</u>
Fruit and olive trees	200 cc/ Hl	1-2 l/Ha	Foliar, 2 nd dosage after 10 days
Citrus	200 cc/Hl	1-2 l/Ha	Foliar, 2 nd dosage after 10 days
Strawberry	200 cc/Hl	1-2 l/Ha	Foliar, 2 nd dosage after 10 days
Vineyards	200 cc/Hl	1-2 l/Ha	Foliar, 2 nd dosage after 10 days
Horticulture	200 cc/Hl	1-2 l/Ha	Foliar, 2 nd dosage after 10 days foliar
Industrial Crops	200 cc/Hl	1-2 l/Ha	Foliar, 2 nd dosage after 10 days

PACKAGING

1 Liter bottles

T-Agriser

It is recommended not to exceed the recommended dosage.
