Calcium Oxide (CaO) soluble in water:	1,95%
Iron (Fe) chelated with EDDHSA:	750 ppm

CHARACTERISTICS

Bio-stimulant product used to promote crop growth and productivity. The product is also a nutritional balance improver during plant stress periods. It also acts improving the rooting and the production of absorbing small roots supplying high quality organic matter, Nitrogen, Potassium and micronutrients for the plant. Thanks to its composition the product de-blocks the soil and helps the autoctonous bacteria in the soil to develop improving the environment for the root development. It improves the conductivity and pH of irrigation water. CANARISER ARRANQUE is of plant origin and it contains organic matter, aminoacids, nutrients and also special microorganisms which help the root.

CROPS

It is recommended for all crops.

USAGE RECOMMENDATIONS
