## CHARACTERISTICS

**SERMIX NPK 10-5-28** is a complete fertilizer which is ideal to be used during the growth and maturation of fruits. The product contains all the required nutrients for the plant to be used as the only fertilizer in the crop. Besides the NPK content, the product contains Magnesium and essential aminoacids which help the plant accumulate sugars and fats in the fruit allowing for a boost in the growth and maturation. The product contains also the required nutrients to accumulate reserves in order to be able to start faster the next season in fruit trees. It also contains seaweed extract which has significant effects in fruit growth in most crops. Micronutrients are also supplied via this product, so the plant is able to avoid any type of deficiency
